##### 10.1.1 Schedule of Payments – July 2025

#### Background

The *Local Government (Financial Management) Regulations 1996* requires Shire officers, monthly and within a prescribed timeframe, to prepare a schedule of payments made from the Municipal Fund and the Trust Fund and present this to Council for confirmation.

Additionally, where credit, debit, or other purchasing cards are used, details regarding their use are also to be reported each month.

Each instance of outgoing monies is to be reported and include the –

- Payee,
- Payment amount,
- Date, and
- Sufficient information to identify the transaction.

## Comment

Shire officers have prepared the Monthly Schedule of Payments, in accordance with legislative requirements.

Following is a summary of the payments incurred in the month under review –

### Payments from Accounts

- |                     |                |
|---------------------|----------------|
| • Municipal Account | \$1,487,024.73 |
| • Trust Account     | \$0.00         |

<u>Total Payments from Accounts</u>	<u>\$1,487,024.73</u>
-------------------------------------	-----------------------

### Payments Using Purchasing Cards

- |                |            |
|----------------|------------|
| • Credit Cards | \$1,277.97 |
| • Fuel Cards   | \$2,382.22 |

<u>Total Payments Using Purchasing Cards</u>	<u>\$3,660.19</u>
--	-------------------

The Monthly Schedule of Payments is attached.

Senior Management  
Shire Officers

## Statutory Implications

*Local Government (Financial Management) Regulations 1996*

*Regulation 13 Payments from municipal fund or trust fund by Chief Executive Officer, Chief Executive Officer's duties as to etc.*

Where the Chief Executive Officer has been delegated the exercise of power to make payments from the Municipal Fund or the Trust Fund, a list of accounts authorised for payment by the Chief Executive Officer is to be presented each month to Council.

*Local Government (Financial Management) Regulation 1996*

*Regulation 13A Payments by employees via purchasing cards*

If a local government has credit, debit, or credit card/s, a list of payments made using the card/s is to be presented each month to Council.

## **Policy Implications**

*Shire of Meekatharra Policy Manual 2023*

*04.02 Purchasing and Procurement*

Shire officers will undertake purchasing activities which align with strategic and operational objectives, meet value for money objectives, and meet defined thresholds, quotation requirements, and practices.

## **Financial Implications**

Payments included in the Schedule have been undertaken in accordance with appropriate processes and the Annual Budget.

## **Risk Implications**

Risk is managed using financial controls and the regular internal review of the information contained within each payment.

## **Strategic Implications**

*Strategic Community Plan 2020 – 2030*

*Governance – Manage resources effectively*

Ensure governance and legislative requirements are met.

## **Voting Requirements**

Simple Majority

## **Recommendation**

That Council, pursuant to Regulation 13 and Regulation 13A of the *Local Government (Financial Management) Regulations 1996*, confirms the Schedule of Payments, as attached, for July 2025.

### **Summary**

Council is required to provide public notice of the date, time, and place of Council meetings.

The currently advertised date for the October 2025 Ordinary Council Meeting coincides with the 2025 Local Government election (Saturday 18 October 2025).

Council is requested to change the meeting date for the October 2025 Ordinary Council Meeting.

### **Attachments**

Nil

### **Background**

Council has previously resolved to adopt the meeting schedule from January 2025 to December 2025.

The resolution identified the October 2025 Ordinary Council Meeting as being held on Saturday 18 October 2025.

At the time of determining the date for the meeting it was unknown which day the 2025 Local Government election would be held, and these two events now coincide.

### **Comment**

Traditionally Council meets for 3 ½ hours on an Ordinary Council Meeting Day where Council members are presented and briefed on several items, before the Ordinary Council Meeting at 11:30am.

The actual Ordinary Council Meeting is usually less than ½ hour.

As the Chief Executive Officer is also the Returning Officer for the Election, the Chief Executive Officer is unlikely to be in attendance on this day.

Some of the options available for the potential change in meeting date include –

- Proceed with the current arrangements, which will mean commencing at 8:30am Saturday 18 October 2025 for briefings and presentations before the Ordinary Council Meeting at 11:30am which will mean the Chief Executive Officer is unlikely to be at the meeting, or
- Proceed with only the Ordinary Council Meeting on the advertised day and time, which will mean any briefings and / or presentations will not be held, and the Chief Executive Officer is unlikely to attend or could delegate Election responsibilities to the Deputy Returning Officer for the time of the meeting, or
- Select another date and time for the October 2025 Ordinary Council Meeting.

If Council was to choose a date and time prior to 18 October 2025 then all current sitting Council members will be able to attend.

If Council was to choose a date and time after 18 October 2025 then the successful candidates from the Local Government Election will be sworn in at this meeting (effectively meaning the September Ordinary Council Meeting may be the last for some current Council members).

The Chief Executive Officer has discussed the proposed date and time with the Shire President, and this has guided the recommendation for the October 2025 Ordinary Council Meeting to be held on Saturday 25 October 2025 commencing at 11:30am.

#### **Summary**

Council is required to adopt an annual budget for each financial year for the purposes of allocating resources towards the provision of works and services.

The Draft 2025-26 Annual Budget has been prepared in consultation with Council members and is ready for adoption.

Council is requested to adopt the 2025-26 Annual Budget together with other associated legislative requirements.

#### **Attachments**

10.3.1 2025-26 Annual Budget (To be forwarded under separate cover)

#### **Background**

The Draft 2025-26 Annual Budget (the Budget) has been formed with regard for future requirements and is in accordance with detailed estimates of expenditure and revenue.

The items contained with the Budget document have been discussed and workshopped with Council members before compilation into the statutory format required for adoption.

The proposed differential general rates were approved by Council on Saturday 17 May 2025 and advertised for public comment.

No submissions were received at the close of the public comment period.

Ministerial approval to impose differential rates and minimum payments was received Friday 25 July 2025.

## Comment

The Budget has been prepared to include information required by legislation and Australian Accounting Standards.

The main features of the Draft Budget include –

- The Budget has been prepared with minor rate increases in line with regional inflationary movements.
- Fees and charges have been reviewed and amended, as appropriate, with very few increases.
- Household and commercial waste charges have remained consistent with the previous year.
- The recurrent operating budget includes an overall increase in estimated cash expenditure of \$2.1 million from the previous year, noting individual line items may vary from previous years based on specific factors affecting each item.
- A capital works program totalling \$19.4 million for construction of infrastructure and purchases of property, plant and equipment is planned. Expenditure on Road infrastructure is the major component (\$8.5 million) with most of these works funded through grants and contributions.
- No loan borrowings are proposed.
- A new Reserve Account (Road Agreement – Westgold Mt Clere Road) is included, with funds received from Westgold via a Road Agreement, which is to reconstruct a section of Mt Clere Road after haulage ceases.
- An estimated surplus of \$7.2 million is anticipated to be brought forward from 30 June 2025. This value is unaudited and is subject to change, with any changes addressed at a future budget review.

In compiling the Budget, Shire officers have, in accordance with Local Government Accounting Principles, -

- Identified recurring operating revenue and expense,
- Prepared salary and wage schedules, including proposed new employees, employee increment changes and Award increases,
- Prepared water, power, and other essential cost estimates and increase assumptions,
- Prepared capital expense based, where possible, on reasonably assumed estimates for construction,
- Confirmed grants for both operating and capital requirements,
- Determined and applied the assumptions for the opening current position from the previous year,
- Identified carry forward initiatives from the previous financial year,
- Flagged committed funds and treated these in accordance with accounting standards,
- Established the legislated compliance of the proposed end of year financial position,

- Obtained estimates for non-current assets to be traded or sold,
- Obtained estimates for insurance, including workers' compensation,
- Updated the schedule of fees and charges for the applicable period,
- Compiled projected cash flows over the reporting period to ensure there is sufficient liquidity to meet current commitments throughout the year,
- Prepared the budget document consistently with comparative financial results from the previous financial period (noting any changes in reporting method may cause individual line-item differences, although totals are comparable), and
- Ensured any invested surplus funds conform with the short-term requirements for drawdowns, as and when funds are required.

Additionally, over the period of workshopping the Budget, Council members discussed and determined the level of payments for Council representation, which included –

- Shire President Local Government Allowance of \$27,500,
- Deputy Shire President Local Government Allowance of \$6,875,
- Shire President Council Meeting Fee of \$550,
- Other Council Member Council Meeting Fee of \$465,
- Information and Communication Allowance of \$2,500, and
- Committee and Approved Group (WA Local Government Association Zone, Regional Road Group, Audit Committee, and Murchison Regional Vermin Council) Meeting Fee of \$235.

## **Statutory Implications**

*Local Government Act 1995*

*Section 6.2 Local government to prepare annual budget*

During the period from 1 June in a financial year to 31 August in the next financial year, or such extended time the Minister allows, each local government is to prepare and adopt, by absolute majority, in the form and manner prescribed, a budget for its Municipal Fund for the financial year ending on 30 June next following the 31 August.

In formulating the budget, Council is to have regard to the contents of the Strategic Community Plan and prepare detailed estimates for the applicable year.

*Local Government (Financial Management) Regulations 1996*

*Part 3 Annual Budget*

This area establishes the form and content of the budget document and requires a copy of the Annual Budget to be submitted to the Department responsible for Local Government within 30 days of adoption by Council.

*Local Government (Financial Management) Regulations 1996*

*Regulation 34 Financial Activity Statement required each month*

Council is required to adopt a percentage or value, calculated in accordance with Australian Accounting Standards, to be used in the monthly Statement of Financial Activity.

Other legislation impacting the budget document include, although not limited to, -

- *Local Government (Miscellaneous Provisions) Act 1960,*
- *Waste Avoidance and Resources Recovery Act 2007,*
- *Salaries and Allowances Act 1975, and*
- *Building Regulations 2012.*

*Local Government Act 1995*

*Section 2.7 Role of council*

Council is responsible for the performance of the local government's functions and is responsible for the allocation of the local government's finances and resources.

*Local Government Act 1995*

*Section 5.2 Administration of local governments*

Council is to ensure there is an appropriate structure for administering the local government, which can include endorsement of the staff establishment.

*Local Government Act 1995*

*Section 5.56 Planning for the future*

A local government is to plan for the future of the district and is to ensure plans are made.

**Policy Implications**

Nil

**Financial Implications**

Specific financial implications are as outlined in the body of this report and as itemised in the Draft Budget.

## **Risk Implications**

There is minimal risk associated with the adoption of the Budget as it is a legislative requirement.

## **Strategic Implications**

*Strategic Community Plan 2020 – 2030*

*Governance – Manage resources effectively*

Ensure governance and legislative requirements are met.

2025-26  
Budget Notes

## 1 - Basis of Preparation

The Annual Budget of the Shire of Meekatharra, which is a Band 3 local government, is a forward looking document and has been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

### Local Government Act 1995 Requirements

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996* prescribe the annual budget be prepared in accordance with the *Local Government Act 1995* and, to the extent they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 Leases which would have required the Shire to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this annual budget have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the annual budget has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

### The Local Government Reporting Entity

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this annual budget. All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears is included in this document.

### 2024-25 Actual Balances

Balances shown in this budget as 2024-25 Actual are estimates as forecast at the time of preparation of the annual budget and are subject to final adjustments.

### Budget Comparative Figures

Unless otherwise stated, the budget comparative figures shown in the budget relate to the original budget estimate for the relevant item of disclosure.

### Comparative Figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

### Rounding Off Figures

All figures shown in this statement are rounded to the nearest dollar.

### Statement of Cashflows

Investing and financing transactions which do not require the use of cash or cash equivalents shall be excluded from a Statement of Cash Flows. Such transactions shall be disclosed elsewhere in the financial statements in a way which provides all the relevant information about these investing and financing activities.

### Initial Application of Accounting Standards

During the budget year the below revised Australian Accounting Standards and Interpretations are expected to be compiled, become mandatory, and applicable to operations -

- AASB 2020-1 Amendments to Australian Accounting Standards
  - Classification of Liabilities as Current or Non-Current
- AASB 2022-5 Amendments to Australian Accounting Standards
  - Lease Liability in a Sale and Leaseback
- AASB 2022-6 Amendments to Australian Accounting Standards
  - Non-Current Liabilities with Covenants
- AASB 2023-1 Amendments to Australian Accounting Standards
  - Supplier Finance Arrangements
- AASB 2023-3 Amendments to Australian Accounting Standards
  - Disclosure of Non-Current Liabilities with Covenants: Tier 2

It is not expected these standards will have a material impact on this annual budget.

### For Note

- AASB 2022-10 Amendments to Australian Accounting Standards
  - Fair Value Measurement of Non-Financial Assets of Not-for-Profit Public Sector Entities.

This became mandatory during the budget year. Amendments to AASB 13 Fair Value Measurement impacts the future determination of fair value when revaluing assets using the cost approach. Timing of future revaluations is defined by regulation 17A of *Local Government (Financial Management) Regulations 1996*. Impacts of this pronouncement are yet to be quantified and are dependent on the timing of future revaluations of asset classes. No material impact is expected in relation to the 2025-26 annual budget.

### New Accounting Standards for Application in Future Years

The following new accounting standards will have application to local government in future years -

- AASB 2014-10 Amendments to Australian Accounting Standards
  - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture
- AASB 2024-4b Amendments to Australian Accounting Standards
  - Effective Date of Amendments to AASB 10 and AASB 128
- AASB 2022-9 Amendments to Australian Accounting Standards
  - Insurance Contracts in the Public Sector
- AASB 2023-5 Amendments to Australian Accounting Standards
  - Lack of Exchangeability
- AASB 18 (FP) Presentation and Disclosure in Financial Statements
  - (Appendix D) [for for-profit entities]
- AASB 18 (NFP/super) Presentation and Disclosure in Financial Statements
  - (Appendix D) [for not-for-profit and superannuation entities]
- AASB 2024-2 Amendments to Australian Accounting Standards
  - Classification and Measurement of Financial Instruments
- AASB 2024-3 Amendments to Australian Accounting Standards
  - Standards – Annual Improvements Volume 11

It is not expected these standards will have an impact on this annual budget.

**Judgements, Estimates and Assumptions**

The preparation of the annual budget, in conformity to Australian Accounting Standards, requires management to make judgements, estimates and assumptions which effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors which are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities which are not readily apparent from other sources. Actual results may differ from these estimates.

The balances, transactions, and disclosures impacted by accounting estimates are as follows -

- Estimated fair value of certain financial assets
- Estimation of fair values of land and buildings and investment property
- Impairment of financial assets
- Estimation uncertainties and judgements made in relation to lease accounting
- Estimated useful life of assets
- Estimation of provisions
- Estimation of fair value of leases

The rating system is the means by which sufficient revenue is raised to pay for the local government services and facilities which are provided to the community. The methodology is designed to ensure all property owners make a reasonable rate contribution, taking into account an owner's ability to pay, and ensuring no sector is rated excessively. All land, (other than exempt land) in the district is rated according to its Gross Rental Value (GRV) in townsites or Unimproved Value (UV) in the remaining areas.

The general rates for the financial year have been determined on the basis of raising the revenue required to meet the deficiency between the total estimated expense proposed in the budget and the estimated revenue to be received from all sources other than rates, and also considering the extent of any increase in rating over the level adopted in the previous year.

The minimum payment, as set, has been determined on the basis all ratepayers must make a reasonable contribution to the cost of local government services and facilities.

## Objects and Reasons for Differential Rating

The following rate categories have been determined for the implementation of differential rating -

### Gross Rental Value (GRV) - Rate in the dollar of 0.098325

The reason for the level of GRV rate is to allow for a fair contribution to the maintenance and provision of town infrastructure and services to a sustainable level. This differential rate is applicable to GRV property assessments having a predominant land use of residential, commercial, industrial, community benefit, or other use which are located within the townsite. The GRV rate in the dollar applied is to reflect the financial impact and costs to provide community services and activities as well as maintain the Shire's infrastructure and to further the Shire's strategic goals to encourage and support development in the town.

### Minimum Payment in respect to GRV - Minimum payment of \$414

The object of the proposed minimum payment for this category is to ensure the amount reflects an alignment to other similar rating categories in the broader region. It is also recognition every assessment in this category receives some level of benefit from provided works and services.

### Unimproved Valuation (UV) Pastoral - Rate in the dollar of 0.087975

This differential rate is applicable to UV property assessments having a predominant pastoral land use. In general, this means any land –

- Which has been granted a pastoral lease under the repealed *Land Act 1993*, or
- A renewed pastoral lease (administered by the Department of Planning, Lands and Heritage), or
- Land predominately used for pastoral activities as defined in the *Land Administration Act 1997*.

The object of the UV Pastoral rate in the dollar is to recognise generally –

- The impact economic and climatic fluctuations have on property landholders' financial capacity to pay,
- The lower overall level of impact pastoral activities generally has on infrastructure in the district, and
- The permanent nature of pastoral businesses relevant to mining and other non pastoral businesses.

### Minimum Payment in respect to UV Pastoral - Minimum payment of \$518

The object of the proposed minimum payment for this category is to ensure the amount reflects an alignment to other similar rating categories in the broader region. It is also recognition every assessment in this category receives some level of benefit from provided works and services.

### Unimproved Valuation (UV) Non-Pastoral - Rate in the dollar of 0.250000

This differential rate is applicable to UV property assessments, other than those identified in other differential categories. In general, this means any non-pastoral land such as land used for mining related activities, roadhouses, communication transmission sites or other uses which are provided with a UV classification. The object of this differential rate is to be the base rate by which all UV rated properties are assessed and is to reflect and raise revenue to manage the impact on the Shire by mining and resource sectors, and other landholders not meeting the Pastoral – UV differential rating category requirements.

### Minimum Payment in respect to UV Non-Pastoral - Minimum payment of \$650

The object of the proposed minimum payment for this category is to ensure the amount reflects an alignment to other similar rating categories in the broader region. It is also recognition every assessment in this category receives some level of benefit from provided works and services.

### Note

The above rates and minimum payments were previously set out in the local public notice giving notice of the intention to charge differential rates. No variation to those advertised and those in this document have occurred.

### Interest Charges and Instalments

The following options are available for the payment of rates and service charges -

#### Option 1 - Full Payment

Full amount of rates and charges including arrears to be paid on or before 3 October 2025, or 35 days after the date of issue appearing on the rate notice, whichever is later.

#### Option 2 - Four Instalments

First instalment to be made on or before 3 October 2025, or 35 days after the date of issue appearing on the rate notice, whichever is the later and includes all arrears and a quarter of the current rates and service charges;

Second instalment to be made on or before 5 December 2025, or 2 months after the due date of the first instalment, whichever is later;

Third instalment to be made on or before 6 February 2026, or 2 months after the due date of the second instalment, whichever is later; and

Fourth instalment to be made on or before 10 April 2026, or 2 months after the due date of the third instalment, whichever is later.

## **Material Accounting Policies**

The following are the Material Accounting Policies used in determining this budget -

### **Current and Non-Current Classification**

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire's operational cycle. In the case of liabilities where the Shire does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if it is not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months, except for land held for sale where it is held as non-current based on the Shire's intentions to release for sale.

### **Trade and Other Payables**

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the financial year which are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.

### **Prepaid Rates**

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and recognised as revenue for those rates which have not been refunded.

### **Inventories**

Inventories are measured at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the costs necessary to make the sale.

### **Superannuation**

The Shire contributes to a number of superannuation funds on behalf of employees. All funds to which the Shire contributes are defined contribution plans.

### **Land Held for Resale**

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs, and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed. Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed to the buyer at this point. Land held for resale is classified as current except where it is held as non-current based on intentions to release for sale.

**Goods and Services Tax (GST)**

Revenue, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the Statement of Financial Activity. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

**Contract Liabilities**

Contract liabilities represent an obligation to transfer goods or services to a customer for which consideration has been received from the customer. Contract liabilities represent obligations which are not yet satisfied. Contract liabilities are recognised as revenue when the performance obligations in the contract are satisfied.

**Trade and Other Receivables**

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets. Collectability of trade and other receivables is reviewed on an ongoing basis. Debts known to be uncollectable are written off when identified. An allowance for doubtful debts is raised when there is objective evidence they will not be collected. Trade receivables are held with the objective to collect the contractual cashflows and therefore they are measured at amortised cost using the effective interest rate method. Due to the short-term nature of current receivables, the carrying amount is considered to be the same as the fair value. Non-current receivables are indexed to inflation, with any difference between the face value and fair value considered immaterial.

**Provisions**

Provisions are recognised when there is a legal or constructive obligation, as a result of past events, for which it is probable an outflow of economic benefits will result and the outflow can be reliably measured. Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

**Short-Term Employee Benefits**

Provision is made for obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled. Obligations for short-term employee benefits, such as wages, salaries and sick leave, are recognised as a part of current trade and other payables. Obligations for employees' annual leave and long service leave entitlements are recognised as provisions.

**Long-Term Employee Benefits**

Long-term employee benefit provisions are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. Obligations for long-term employee benefits are presented as non-current, except where there is no unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

**Contract Assets**

Contract assets primarily relate to the Shire's right to consideration for work completed and not billed at the end of the period.

## 4 - Reconciliation of Cash

For the purposes of the Statement of Cash Flow, cash includes cash and cash equivalents, net of outstanding bank overdrafts. Estimated cash at the end of the reporting period is as follows -

		<b>3,800,000</b>	<b>6,640,000</b>	<b>2,991,260</b>

**Cash and Cash Equivalents**

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks, other short-term, highly liquid investments which are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts.

Bank overdrafts are shown as short-term borrowings in current liabilities.

**Financial Assets and Amortised Cost**

Financial assets are classified at amortised cost if both the following criteria are met -

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows which are solely payment of principal and interest.

## 5 - Capital Assets

The following assets are budgeted to be acquired during the year -

### Recognition of Assets

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with Financial Management Regulation 17A. These assets are expensed immediately.

Where multiple individual low-value assets are purchased together as part of a larger asset, or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

### Details of Asset Acquisitions

A detailed breakdown of asset acquisitions on an individual basis is included in a separate section of this document.

### Depreciation

The depreciable amount of all fixed assets, excluding Land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements. Asset residual values and useful lives are reviewed, and adjusted if appropriate, on a regular basis. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than the estimated recoverable amount.

Major depreciation periods used for each class of depreciable asset are -

Land	Not Depreciated	Roads	5 to 50 years
Buildings	10 to 40 years	Pathways	10 to 40 years
Furniture and Equipment	1 to 20 years	Other Infrastructure	10 to 20 years
Plant and Machinery	1 to 20 years	Airport	10 to 20 years

## 7 - Borrowings

### New Borrowings

The Shire does not intend to undertake any New Borrowings for the year ended 30 June 2026.

### Unspent Borrowings

The Shire had no Unspent Borrowings as at 30 June 2025, and does not anticipate having any at 30 June 2026.

### Credit Facilities

The Shire has the following credit standby arrangements -

	2025-26 Budget \$	2024-25 Actual \$	2024-25 Budget \$
<u>Undrawn Borrowing Facilities</u>			
Bank Overdraft Limit	1,000,000	1,000,000	1,000,000

	<b>1,010,000</b>	<b>1,010,000</b>	<b>1,015,000</b>

### Overdraft Details

The Shire has a \$1 million overdraft facility with Westpac Corporation to provide short-term cash flow if required.

### Borrowing Costs and Repayments

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction, or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

All borrowing repayments, other than self-supporting loans, are financed through general purpose revenue. Self-Supporting Loans (SSL) are fully reimbursed by external parties.

## 8 - Lease Liabilities

### Lease Liabilities

The Shire did not hold any Lease Liabilities at 30 June 2025, and does not anticipate having any at 30 June 2026.

## 16 - Revenue and Expenditure

### Revenue and Expenditure Classifications

The following classifications of revenue and expenditure are used in this document -

#### Rates

All rates levied under the *Local Government Act 1995*. Includes general, differential, specified area, minimum, interim, back, and ex-gratia rates, less any discounts and concessions offered. Does not include administration fees, interest on instalments, interest on arrears, service charges and sewerage rates.

#### Grants, Subsidies and Contributions

Refers to all amounts received as grants, subsidies and contributions which are not capital in nature.

#### Capital Grants, Subsidies and Contributions

Amounts received specifically for the acquisition, construction or upgrading non-current assets paid to a local government, irrespective of whether these amounts are received as capital grants, subsidies, contributions or donations.

#### Revenue from Contracts with Customers

Revenue from contracts with customers is recognised when the local government satisfies the performance obligations under the contract.

#### Fees and Charges

Revenue (other than service charges) from the use of facilities and charges made for local government services, sewerage rates, rentals, hire charges, fee for service, photocopying charges, licences, sale of goods or information, fines, penalties and administration fees.

#### Service Charges

Service charges imposed under Division 6 of Part 6 of the *Local Government Act 1995*. Regulation 54 of the *Local Government (Financial Management) Regulations 1996* identifies these as television and radio rebroadcasting, underground electricity and neighbourhood surveillance services. Does not include rubbish removal charges.

#### Interest Earnings

Interest and other items of a similar nature received from bank and investment accounts, interest on rate instalments, interest on rate arrears and interest on debtors.

#### Other Revenue

Other revenue which cannot be classified under the above headings, and includes dividends, discounts and rebates.

#### Profit on Asset Disposal

Profit on the disposal of assets, including gains on the disposal of long-term investments.

**Employee Costs**

All costs associated with the employment of people, such as salaries, wages, allowances, benefits (such as vehicle and housing), superannuation, employment expense, removal and relocation, workers' compensation insurance, training, conference, personal protection equipment, medical examinations, fringe benefits taxation etc.

**Materials and Contracts**

All expense on materials, supplies and contracts not classified under other headings. These include supply of goods and materials, legal expense, consultancy, maintenance agreements, communication expense, advertising, memberships, periodicals, publications, minor equipment hire, rentals, leases, postage and freight etc.

**Utilities**

Expense made to the respective agencies for the provision of power, gas or water. Does not include the reinstatement of services associated with civil works.

**Insurance**

All insurance other than workers' compensation and health benefit insurance (which are employee costs).

**Loss on Asset Disposal**

Loss on the disposal of fixed assets, including losses on the disposal of long-term investments.

**Depreciation on Non-Current Assets**

Depreciation and amortisation expense raised on all classes of assets.

**Finance Costs**

Interest and other costs of finance paid, including costs of finance for loan debentures, overdraft accommodation and refinancing expense.

**Other Expense**

Statutory fees, taxes, provision for bad debts, members' fees, taxes, and donations and subsidies provided to community groups.

**Revenue Recognition**

Recognition of revenue from contracts with customers is dependant on the source of revenue and the associated terms and conditions associated with each source of revenue and recognised as follows -

<b>Revenue Category</b>	<b>Nature of Goods and Services</b>	<b>When Obligations Satisfied</b>	<b>Payment Terms</b>	<b>Returns / Refunds / Warranties</b>	<b>Revenue Recognition Timing</b>
<b>Grant Contracts With Customers</b>	Events, Facilities, Research, Design	Over time	Fixed terms transfer of funds based on agreement	Contract obligation if not complete	Output based on project milestone achievement
<b>Licences / Approvals / Registrations</b>	Building, Planning, Animals, Development	Single point in time	Full payment prior to issue	Normally none, time limit breach may incur	On payment and issue of licence, approval etc.
<b>Waste Management Entry Fees</b>	Treatment, Disposal, Recycling	Single point in time	Payment in advance at gate or on credit	None	On entry to facility
<b>Fees and Charges for Other Goods and Services</b>	Cemeteries, Fines, Photocopying, Private Works	Single point in time	Payment in full in advance	None	Output based on service provision or completion

## 17 - Program Information

### Key Terms and Definitions

In order to discharge Council's responsibilities to the community, the following objectives and activities have been defined. They are established both on an overall basis, reflected within Council's key strategic documents and vision statement, and also for each of the broad activities listed in the following programs -

### General Purpose Funding

The provision of the efficient collection of revenue to allow for the provision of services. Activities include rate collection, receipt of general-purpose grants and interest earnings.

### Governance

The provision of a decision-making process for the efficient allocation of resources. Activities include the administration and operation of facilities and services to members of council.

### Law, Order and Public Safety

The provision of services to help ensure a safer community. Activities include supervision and enforcement of various local laws relating to fire prevention, animal control and other aspects of public safety, including emergency services.

### Health

The provision of an operational framework for environmental and community health. Activities include food safety programs, trading permits, drinking water analysis, public and private pool safety, mosquito management, noise and dust inspections, environmental health support to Aboriginal communities, and the provision of public information regarding matters such as asbestos, mosquito-borne infections and food hygiene.

### Education and Welfare

The provision of services to disadvantaged persons, the elderly, children and youth. Activities include the maintenance of pre-school facilities, financial assistance to schools, assistance to welfare groups and programs for youth.

### Housing

The provision of housing. Activities include the provision and maintenance of staff and rental housing.

### Community Amenities

The provision of services required by the community. Activities include rubbish collection, refuse site operations, litter control, administration of planning schemes, cemetery operations, public toilet facilities and protection of the environment.

### Recreation and Culture

The provision and management of infrastructure and resources which will assist the social well-being of the community. Activities include the maintenance of public halls, swimming pools, sporting facilities, parks and associated facilities, provision of library services, museums and other cultural facilities.

### Transport

The provision of safe, effective and efficient transport infrastructure for the community. Activities include the construction and maintenance of streets, roads, bridges, pathways, street lighting, traffic management and aerodrome facilities.

### Economic Services

The provision of area promotion and economic improvement services. Activities include tourism and area promotion, maintenance and operation of caravan parks and tourism accommodation, weed control, vermin control, standpipes and building control.

### Other Property and Services

The provision of support services to monitor and control operations. Activities include private works operations, plant repairs, plant operating expense, stock and material management, salaries and wages of council employees and organisational overheads.
